- **Better taste:** Combines the best attributes of A-1® and Heinz 57® for a taste that will be preferred by users of both.
- **Versatile:** In addition to steak, this sauce is excellent with chops, hamburgers, fries, roast and poultry; also a great addition to soups, stews and gravies.
- **Selected by GQ Magazine as one of America's best!**

GQ writes: *"The purpose of steak sauce is to help you eat more steak, not to match its smoky-charred goodness or mask it with peppery counterpoint. Cleanse the palate, tease the mouth a little, and make way for more.*

"Watkins Steak Sauce: A tart little sauce, slightly barbecueish and sweet but effective in cutting the saltiness and whetting the appetite. Claims to be somewhere between A.1. and Heinz 57, but thankfully is better."
