(325 mL/11 fl. oz.)

Keep your body's delicate skin soft with J.R. Watkins natural hand & body lotions. This rich formula provides deep long-lasting moisture, leaving skin naturally smooth, soft and nourished. Our natural formula contains more than ten natural oils and extracts to protect and pamper even the most sensitive skin.

- All hand & body lotions are 97% natural and above.
- Available in six essences: aloe & green tea, coconut milk & honey, lemon cream*, lavender*, mango* and vanilla* (*NPA certified.)
- Non-greasy formula.
- Contains panthenol (vitamin B5) and natural shea and cocoa butters.
- Natural oils include apricot, coconut, avocado, babassu and jojoba oil.
- Relieves chafed, chapped and dry skin.
- Packaged in Watkins exclusive Trial Mark bottle.
- For everyday, all day use.

Essential Ingredients

- **Shea Butter:** A natural fat obtained from the fruit of the West African karite tree. It has a high content of non-saponifiable fatty acids, as well as allantoin and linoleic acid (vitamin F).
- **Cocoa Butter:** A vegetable fat from the cocoa bean which softens and lubricates the skin.
- **Macadamia Nut Oil:** This rejuvenating body oil has a warm, nutty aroma and excellent spreadability with no greasy feel. Its fatty acid composition is similar to that of natural skin oils (sebum), including some of the acids that are crucial to the maintenance of the skin's water barrier functions. It is excellent for daily skin care to moisturize and soften the skin.
- **Avocado Oil:** Delivers essential fatty acids, and contains vitamin A (in the form of carotenoids), plus exceptionally high amounts of vitamins D, E and potassium to help keep skin moist and smooth. Avocado oil has the highest penetration rate among similar oils.
- **Jojoba Oil:** A natural moisturizer held in high regard by the Native Americans of the Sonora Desert for its cosmetic properties.

- **Apricot Kernel Oil:** This oil is similar in texture and properties to almond oil and is in the same category as olive oil and avocado oil. Apricot kernel oil is considered by many chemists to be an excellent natural replacement for mineral oil; it is rapidly absorbed by the skin and has a high vitamin E content.
- **Coconut Oil:** A grouping of short-chain fatty acids bonded with glycerin and expressed from coconut kernels. Coconut oil is rich in vitamins and fats that help smooth and soften skin.

Ingredients we avoid:

- Chemical Sunscreens
- Diethanolamine
- Ethoxylates (a source of 1,4 Dioxane)
- Formaldehyde Donors
- Glycols
- Mineral Oil
- Parabens
- Parrafin
- Petrolatum
- Phthalates
- Polymers (Acrylates, Carbomer, PVP)
- Silicones
- Sodium Laureth Sulfate
- Sodium Lauryl Sulfate
- Synthetic Dyes
- Talc
- Triethanolamine

Testimonial—

Individual results may vary.

"I've never heard of aloe and green tea lotion so I tried your product. When I used this product I was amazed. It is hands down the best lotion I've ever used. I love it! This lotion is light, refreshing and soothing; I have used it every day since I bought it. If the rest of your products are this great then you have a very loyal J.R. Watkins customer."
