### Tips

- Make cleaning an experience, not a chore! Put on music you enjoy, wear comfortable clothing and take pride in your work. Be sure to admire your efforts when you're done.
- Cluttered surfaces interfere with cleaning and dusting. Control clutter on a daily basis so the task never gets overwhelming.
- Microfiber cloths are a great way to lessen your impact on the environment. No more roll after roll of paper towels. The fibers trap dust instead of lifting it back up into the air.
- Always keep all cleaning supplies out of reach of children and pets.
