Article No. 32300 (350 mL)
(Canadian product)

The name says it all! Settelz helps settle upset stomach due to over-indulgence of food or drink, hasty eating or nervous excitement. Pleasant mint flavor makes it easy to take and leaves a refreshing taste in the mouth, while the soothing ingredients coat the stomach to relieve indigestion.

- **Time-tested:** Since 1958!
- **Bismuth Subsalicylate:** Relieves indigestion caused by sour and acid stomach, overindulgence in food or drink, and nervous excitement by coating irritated stomach and intestinal lining and returning digestion to normal; goes to work instantly.
- **Wintergreen flavor:** Pleasant taste makes it easy to take.
- **Gentle formula:** Does not affect normal acidity of the stomach essential for digestion.
- **Low use level:** Economical; lasts three times longer than the leading drug store brand, saving you money.
