

Toilet Bowl Cleanser/Bowl Cleaner Caddy & Brush

Article No. 06795/36795 Toilet Bowl Cleanser
(946 mL/32 fl. oz.)

You simply can't buy a better, more powerful toilet bowl cleaner anywhere! Cleans better, yet is safe for septic tanks. For use on vitreous china only.

- **Advanced hydrochloric acid (hydrogen chloride) formula:** Hydrochloric acid (HCl) is the most powerful cleaner known for use on toilet bowl stains, yet will not harm septic system.
- **Concentrated:** Contains up to twice as much HCl as some products, making it much more economical to use.
- **Dimethyl benzyl ammonium chloride:** Deodorizes and disinfects.

Note: Use with Bowl Cleaner Caddy and Brush (Article No. 06248, sold separately) for safe, convenient storage and optimum-performance application.

Essential Ingredients

Hydrogen Chloride 23.00%

n-alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chlorides 0.05%

Inert Ingredients 76.95%

Total 100.00%

Article No. 06248 Bowl Cleaner Caddy & Brush

- **Adds to convenience:** Safely, conveniently holds Toilet Bowl Cleanser (06795/36795) and brush; eliminates worry about where to place brush after use.
- **Includes Duralon brush:** "Swab" tip holds bowl cleaner without dripping for convenient painting onto bowl surface; durable enough to stand up to Watkins concentrated acid-based bowl cleaners.

Testimonial —

Individual results may vary.

"I purchased a store four years ago and with it I inherited a toilet that was almost chocolate brown above the water line, due to a very heavy calcium/lime build up. Over the years we tried different brands of toilet bowl cleaners. Not one of them worked. We gave up any hopes of it ever getting clean. Our Watkins Associate took one look at the toilet and said that it could be cleaned, regardless of the terrible condition it was in. I figured that there had to be about a 15-year buildup, so I had my doubts that any cleaner would work on it, but we let him try. Were we ever surprised! In no time the toilet bowl was sparkling white, just like new. No other cleaner had even made a dent in the buildup. We were amazed to finally see our toilet bowl glistening white."
